SUMMARY

Computer Science student at BINUS University majoring in Intelligence System passionate about software engineering and intelligent systems. I focus on writing clean code to build impactful digital products, with a strong interest in computer vision. Currently exploring how to integrate algorithms and visual data into modern applications.

SKILLS

- **Hard Skills:** Python, Sckit-learn, OpenCV, YOLO, DistilBERT, LLM APIs, HTML/CSS, JS, React
 - **Soft Skills:** Teamwork, Communication, Problem Solving, Time Management, Public Speaking, Leadership
 - **Tools:** VSCode, Github, Figma, Jupyter Notebook
-

PROJECTS

Trimly - Fullstack Website

- Developed a responsive barbershop booking web application using Next.js and TypeScript.
- Built a booking flow that allows users to choose a service, select a barber, and reserve an available time slot.
- Developed barber profile pages featuring service information, customer reviews, ratings, and post-service tipping functionality.
- Designed reusable front-end components and responsive layouts using Tailwind CSS.

VigilEye - Real-Time Driver Drowsiness Detection System

- Developed a real-time driver drowsiness detection system using facial landmark analysis with MediaPipe.
- Implemented personalized eye calibration and Eye Aspect Ratio (EAR) monitoring to detect prolonged eye closure and signs of drowsiness.
- Integrated PERCLOS and Mouth Aspect Ratio (MAR) analysis to monitor eye closure patterns and detect yawning.
- Built a multi-level drowsiness scoring system (Normal, Warning, Drowsy) with real-time audio alerts for detected driver fatigue.

LastBite - Mobile Application

- Designed the UI/UX for the LastBite application using Figma.
 - Developed the application's front-end using Next.js and TypeScript.
-

ORGANIZATIONAL EXPERIENCE

Bina Nusantara Computer Club - Bina Nusantara University
Human Resources Development Activist

Oct 2024 - Sep 2025

- Conducted monthly evaluations with BNCC activists to identify challenges, provide feedback, and support problem-solving.
- Served as a committee member for the BNCC x HIMTI Company Visit to Apple Developer Academy.

Bina Nusantara Computer Club - Bina Nusantara University
Human Resources Development Activist

Oct 2025 - Sep 2026

- Led the HRD Division and coordinated team members to ensure effective execution of organizational programs and responsibilities.
 - Conducted interviews and evaluated candidates during the recruitment process for prospective BNCC activists.
 - Organized regular organization bonding activities to strengthen collaboration and engagement among division members.
-

EDUCATION

Bina Nusantara University
Bachelor of Computer Science, GPA: 3.17 / 4.00

Aug 2024 - Present
